

2019-2020
CAREER PATHWAYS ARTICULATION AGREEMENT BETWEEN
THE SCHOOL BOARD OF LAKE COUNTY, FLORIDA and
DAYTONA STATE COLLEGE

In a continuing effort for the School Board of Lake County, Florida (School Board) and Daytona State College (DSC) to provide career opportunities for secondary school students in Career Pathways programs for transition into postsecondary institutions, DSC agrees to extend at no cost to the student (other than the application fee) college credit at DSC according to the following requirements:

I. Articulation with Daytona State College

To articulate courses taken in Career and Technical Education Career Pathways Program of Study at Lake County Schools (LCS) Secondary Schools to DSC, students must meet the following requirements to earn college credit:

1. The student shall be considered a Career Pathways student, defined as a student in an articulated, sequential Career and Technical Education (CTE) program and enrolled in Level II or III courses that lead to a postsecondary certificate, A.S. or A.A. degree.
2. The student must pass the specified high school courses identified on the CTE Career Pathways Program of Study within a career and technical program with a minimum grade point of 3.0. (B). DSC will award the credit up to 24 months from the time of high school graduation until the student enters the college.
3. The student shall pay the DSC Admissions application fee.
4. The student must meet regular DSC entrance requirements, including appropriate placement and course prerequisite requirements of the college.
5. Credit may be earned in any combination of the following ways:

OPTION A. Take and pass the DSC common assessment (Credit by Exam) for courses listed on the articulation pages contained within this agreement. The student must enroll and attend Daytona State College after high school graduation in order to receive the credit earned by the DSC common assessment (Credit by Exam).

OPTION B. Receive credit for an industry certification(s) earned while enrolled in a Career Pathways Program of Study which corresponds to a DSC program. A list of approved certifications along with the equivalent articulated credit is available on the individual program pages contained within this document. If the certification product version is different from the listed industry standard, DSC faculty will review the certification to determine equivalence.
6. The student must present the Career Pathways Certificate of Completion, copy of industry certification, and/or present a high school transcript verifying the successful completion of the technical courses and/or industry certification, if applicable, to DSC's Admissions & Records Office.

**2019-20 CAREER PATHWAYS ARTICULATION
CAREER PATHWAYS COURSE EQUIVALENCE**

II. Assessment and Course Equivalency

1. The DSC common assessment (Credit by Exam) study guide, prepared by DSC program faculty for each program area will be shared with high school faculty. The DSC common assessment (Credit by Exam) may be written, portfolio, performance-based or a combination thereof. DSC will provide high school faculty, upon written request, the opportunity to take the DSC common assessment (Credit by Exam).
2. Faculty and staff on the technical discipline subcommittees have examined and compared the competencies within the technical courses to be articulated from the high school curriculum to the postsecondary institutions to determine the equivalency of the content. Each technical subcommittee will develop and regularly update the discipline-specific Program of Study content equivalency descriptions.

III. Term and Termination

This agreement shall be in effect from July 1, 2019 to June 30, 2020. This agreement may be renewed annually upon mutual written agreement of the parties for additional one (1) year periods. Either party may terminate this agreement with ninety (90) days written notice. This agreement is to be reviewed annually and is subject to change if changes are made to the Lake County High School CTE Program or to the AS degree or certificate programs at Daytona State College of Florida. Modifications to the agreement must be agreed upon in writing and signed by both parties.
